|------------------------------------|--|------------------------------------|-----------------------|
| Adenoid cystic carcinoma.....      | 43   | Hearing loss.....                  | 25, 75, 124, 142, 192 |
| Alpha-galactosidase.....           | 52   | Hemodynamic brain response.....    | 37                    |
| Anatomy.....                       | 188  | Hyaluronan.....                    | 124                   |
| Angiofibroma.....                  | 99   | Hypocalcemia.....                  | 118                   |
| Animal experimentation.....        | 75   | Image-guided surgery systems.....  | 91                    |
| Animal research.....               | 124  | Inclusion cyst.....                | 95                    |
| Aspiration.....                    | 146  | Infratemporal fossa.....           | 91                    |
| Atypical lipoma.....               | 47   | Labyrinthitis.....                 | 183                   |
| Audiology.....                     | 25, 109, 124                                     | Labyrinthitis ossificans.....      | 183                   |
| Barotrauma.....                    | 134  | Laryngeal diseases.....            | 66                    |
| Bleeding.....                      | 83   | Laryngectomy.....                  | 20                    |
| Body position.....                 | 146  | Laryngology.....                   | 166                   |
| Branchial cleft.....               | 188  | Larynx.....                        | 166                   |
| Case report.....                   | 43, 47, 91, 95, 99, 134, 138, 142, 183, 188, 192 | Larynx cancer.....                 | 20                    |
| Children.....                      | 146, 151   | Laser therapy.....                 | 99                    |
| Cholesteatoma.....                 | 1  | Liposarcoma.....                   | 47                    |
| Chronic disease.....               | 160  | Lower lateral cartilage.....       | 8                     |
| Chronic lymphocytic leukemia.....  | 47   | Lymph node metastasis.....         | 58                    |
| Cisplatin.....                     | 75   | Lymph node ratio.....              | 58                    |
| Classification.....                | 166  | Lysosomal storage diseases.....    | 52                    |
| Cochlear implantation.....         | 183, 192   | Malignancy.....                    | 43                    |
| Cochlear implants.....             | 103  | Mastoidectomy.....                 | 1                     |
| Congenital.....                    | 188  | Maxillary nerve.....               | 134                   |
| Congenital anomaly.....            | 142  | Modified barium swallow study..... | 146                   |
| Debridement.....                   | 175  | Monopolar electrocautery.....      | 83                    |
| Deep neck abscess.....             | 91   | Mucormycosis.....                  | 175                   |
| Dexamethasone.....                 | 103  | Multivariate analysis.....         | 160                   |
| Drug-related ototoxicity.....      | 124  | Nasal decongestants.....           | 134                   |
| Dysphonia.....                     | 66, 166  | Nasal tip.....                     | 8                     |
| Electrode impedance.....           | 103  | Nasopharynx.....                   | 47                    |
| Endoscopic surgery.....            | 1  | Near-infrared spectroscopy.....    | 37                    |
| Endoscopic surgical procedure..... | 160  | Neck.....                          | 58                    |
| Endoscopy.....                     | 175  | Neoplasms.....                     | 47                    |
| Epidermoid cyst.....               | 95   | Nose.....                          | 14                    |
| Epiglottis.....                    | 99   | Obesity.....                       | 138                   |
| Fabry disease.....                 | 52   | Obstructive sleep apnea.....       | 151                   |
| Facial asymmetry.....              | 14   | Olfaction.....                     | 37                    |
| Facial nerve.....                  | 188  | Orbit.....                         | 95                    |
| Facial pain.....                   | 134  | Osteogenesis.....                  | 183                   |
| Feeding.....                       | 146  | Otoacoustic emissions.....         | 75                    |
| Fibrosis.....                      | 103  | Otologic surgical procedures.....  | 1                     |
| Fungal sinusitis.....              | 175  | Otology.....                       | 109                   |
| Genetic disease.....               | 192  | Otorhinolaryngology.....           | 192                   |
| Genetic testing.....               | 52   | Ototoxicity.....                   | 75                    |
| Gentamicin.....                    | 124  | Oval window.....                   | 142                   |
| Guideline.....                     | 175  | Pain.....                          | 83                    |
| Head and neck surgery.....         | 91   | Parent child relations.....        | 25                    |
| Hearing aids.....                  | 25   | Parotid cancer.....                | 58                    |
| Hearing impairment.....            | 25   | Pediatric.....                     | 99, 188               |
